The Group has considered the possible effects that may result from the Covid-19 pandemic on the carrying value of assets [including property, plant and equipment, investment property, capital work in progress, intangible assets, goodwill, investments, inventories, and advances, etc]. In developing the assumptions relating to the possible future uncertainties in the economic conditions because of this pandemic, the Group, as at the date of approval of these financial results has used internal and external sources of information to assess the expected future performance of the Group. The Group has performed sensitivity analysis on the assumptions used and based on the current estimates, the Group expects that the carrying amount of these assets, as reflected in the balance sheet as of 30th September 2021 are fully recoverable.

The Group has also made assessment of the progress of construction work on its ongoing projects during the period of lockdown and has concluded that the same was only a temporary slowdown in activities and has accordingly capitalised/inventorised the borrowing costs incurred in accordance with Ind AS 23.

Further, due to prevailing circumstances, the Group has recognised revenue for the quarter and six months period ended 30th September 2021 and underlying receivables after having regard to the Group's ongoing discussions with certain customers on best estimate basis.
